

Incardex

– software for ID card design and printing.

With Incardex you need just 3 steps to create an ID card:

- ✓ Enter ID card holder information.
- ✓ Capture or load ID photo.
- ✓ Print the ready ID card.

Incardex features:

- ✓ Create ID card designs. Various layouts, backgrounds, and formats are supported.
- ✓ Create and manage internal databases.
- ✓ Work with the external databases (MS Excel, Text file, MS Access, MS SQL).
- ✓ Enter ID card holder data.
- ✓ Capture ID photos with Canon or web camera controlled from PC.
- ✓ Load ID photos to the database from disk.
- ✓ Print ready ID cards on standard printers. Conditional printing. Print multiple ID cards on a sheet.

Product advantages:

- ✓ Connect with various databases.
- ✓ Automatic face find and crop.
- ✓ Very clear and user friendly interface.
